

Amirata Khodaparast

amiratak88@gmail.com ♦ <https://amiratak.dev> ♦ <https://github.com/amiratak88>

I'm a full stack web developer proficient in technologies like Ruby on Rails, ReactJS and NodeJS. I've Completed Flatiron Immersive Web Development bootcamp. I strive to become a better developer everyday by experimenting with new languages and technologies and learning modern techniques and best practices. Currently seeking a full time position in the web and software industry.

TECHNICAL PROJECTS

Eatup - [Github](#) | [Demo](#)

Allows restaurants to upload their menu and receive online orders in real time

- + Built a restful API using Ruby on Rails
- + Employed action cables and web sockets to allow real time features, including search, ordering and order updates for both customers and managers
- + Developed front end incorporating React, Redux and Semantic UI React for the user interface design

Flatiron University - [Github](#) | [Demo](#)

A platform for students and professors to manage their school related activities such as course registration, grading and etc.

- + Employed Ruby on Rails along with standard design patterns to develop an MVC app
- + Worked with "sessions" to store the logged-in status
- + Implemented required logic to redirect users from unauthorized views
- + Used 'bcrypt' gem for authentication and storing encrypted password in the database

Hanafuda - [Github](#) | [Demo](#)

An ancient Asian card game where players match certain cards to get the highest point score possible

- + Built a rails API to shuffle and deal the cards
- + Incorporated vanilla JavaScript to manipulate the DOM and move cards around the board
- + Developed logic to calculate the total score based on the collected cards

TECHNICAL SKILLS

Ruby, Ruby on Rails, Javascript, NodeJS, ExpressJS, ReactJS, Redux, CSS, Sass, Sinatra, HTML, Git, Heroku, SQL, PostgreSQL, MongoDB

EMPLOYMENT HISTORY

Freelance Full Stack Web Developer

Nov 2018 - Present
